REMARKS

At the outset, Applicants thank the Examiner for the telephonic interview of November 23, 2009, wherein issues concerning the structure of the compounds presented in claim 1 were discussed. In follow-up to the telephonic interview with the Examiner, Applicants have amended claim 1 to include the structure of the compounds listed therein. In addition, Applicants have amended the paragraph beginning at line 3 of page 10 to correct the inadvertent misprint of compound 12 therein. Support for the amendments to the claim and specification is found in the passage spanning page 10 (line 3) and page 12 (line 2) of parent application PCT/US03/33022. No new matter has been added by this amendment.

Applicants believe that the foregoing comprises a full and complete response to the Office Action of record. Accordingly, favorable reconsideration and subsequent allowance of the pending claim is earnestly solicited.

Respectfully submitted,
